Brit Institute

Start Your Data Journey with AI from Day One

Modern skills. Smart tools. **AI-powered** future.

MONTH 1

Analytics + AI Foundation

- ✓ DA vs DS vs DE (clear career mapping)
- ✓ Types of analytics (Descriptive → Predictive)
- ✓ AI in analytics workflows
- ✓ Prompt engineering for analysts
- ✓ Tools overview (Excel, SQL, Power BI, Python + AI)

PROJECT WORK

AI-generated business insights from raw dataset

MONTH 2

Excel + AI Automation

- ✓ Advanced Excel (INDEX-MATCH, IF, nested logic)
- ✓ Data cleaning workflows
- ✓ Pivot tables & dashboards
- ✓ AI-assisted reporting
- ✓ Automating repetitive Excel tasks

PROJECT WORK

- Sales dashboard (Manual vs AI)
- Automated report generation

Brit Institute

Master Industry Tools & Build **Real Dashboards**

Learn. Practice. Analyse. Build. This is what **real analysts** use in jobs every day.

MONTH 3

Power BI + AI Dashboards

Power BI

- ✓ Power Query (ETL mindset)
- ✓ Data modelling (star schema)
- ✓ DAX measures & calculations
- ✓ Dashboard design & storytelling
- ✓ AI-generated insights & natural language analysis

REAL-WORLD PROJECTS INCLUDED

Sales dashboard

HR analytics dashboard

Finance KPI dashboard

MONTH 4

SQL + AI Querying

SQL

```
SELECT region,  
SUM(revenue) AS total_rev  
FROM sales  
GROUP BY region;
```

- ✓ SQL (SELECT, JOIN, GROUP BY)
- ✓ Subqueries & window functions
- ✓ Data cleaning in SQL
- ✓ Query performance basics
- ✓ AI-assisted SQL generation & debugging

REAL-WORLD PROJECTS INCLUDED

Customer segmentation

Banking dataset analysis

Revenue insights

Build dashboards and queries aligned with **real UK job requirements.**

Industry-Relevant Skills

Job-Ready Projects

UK Job Market Aligned

Become Job-Ready with Advanced Skills & Real Experience

Advanced tools. Real projects. **Career success.**

MONTH 5

Python + ML + AI Automation

- ✓ Python & Pandas for data analysis
- ✓ Data cleaning & EDA
- ✓ Machine learning (regression & classification)
- ✓ Model evaluation basics
- ✓ AI-assisted coding & automation

PROJECT WORK

Data automation script

Trend analysis

Sales prediction

Customer churn prediction

MONTH 6

Pipelines, Case Studies & Career Launch

- ✓ ETL pipelines & workflow automation
- ✓ GitHub portfolio development
- ✓ Tools: n8n, Azure (basic exposure), LangChain (intro)

REAL CASE STUDIES

Sales drop analysis

Customer churn

Supply chain insights

CAREER PREPARATION

Resume (ATS optimised)

Mock interviews

AI-powered interview prep

CAPSTONE PROJECT

SQL

Python

Power BI

AI

End-to-end project (SQL + Python + Power BI + AI)

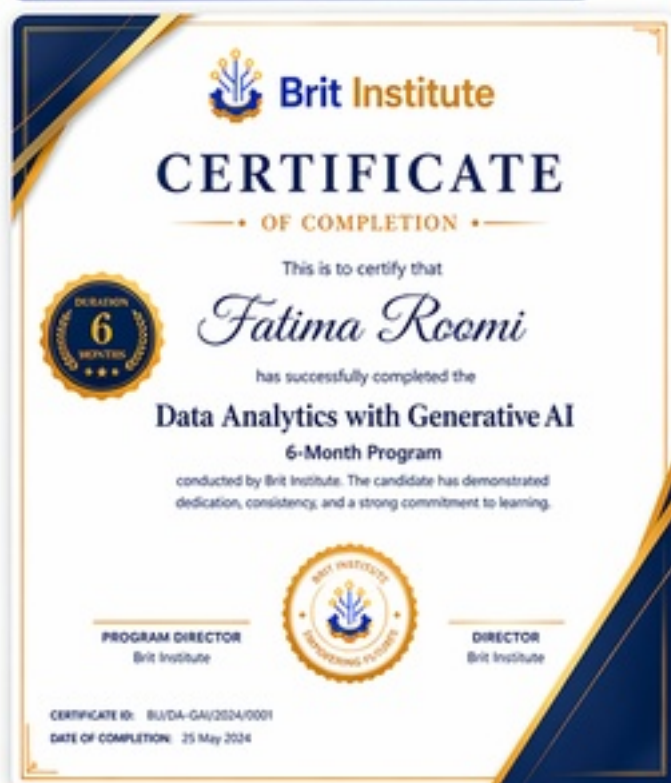

Dashboard + insights + automation + GitHub

Earn Industry-Recognised Certifications

Validate Your Skills. Boost Your Career.

1 Brit Institute Professional Certificate

- ✓ Certificate of completion in Data Analytics with Generative AI
- ✓ Validates your practical, job-ready skills
